

BUELL ULYSSES SU RACK HTP2-1-1B

Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us directly at 1-800-444-8770 or e-mail installation@happy-trail.com.

Before you begin, place the bike on a hard level surface where you have room to work. Lay out the parts included in this kit and compare to the parts list on page 3 of these instructions. If any parts or hardware are missing, contact us immediately at the number or email listed above.

Step 1

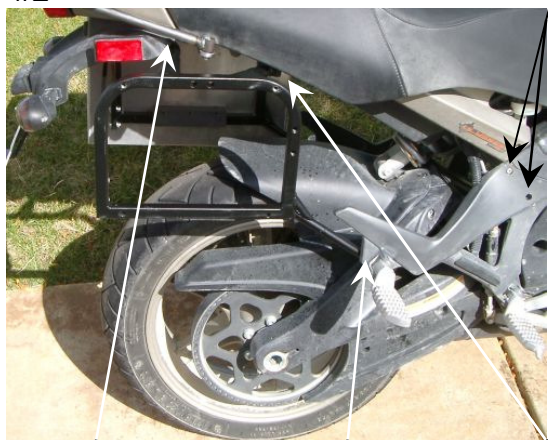

Under the seat, remove the four bolts (two on each side) that are in front and behind the stock tail rack mounts. Reference picture #2 for the rear and middle mounts. Use the 1/4" X 1 1/4" Hex Head Bolt and the 1/4" fender washers at these locations when installing. Do not fully tighten all hardware until the last step

Step 2

The front lower mount on the SU rack goes to the backside of the passenger peg assembly. There is an existing mount point that is threaded. Reference picture #2 for the front mount. Use the 1/4" X 1" Socket Head Bolt and 1/4" washer at this location when installing.

If the Rack does not line up, loosen these bolts to achieve alignment.

#2

Rear mount

Front lower mount
Passenger peg assembly

Middle mount

IMPORTANT!!!!

When installing Happy Trails racks, leave all bolt connections loose until the entire product is installed. Then go back and tighten all connections. We recommend the use of thread locking compound.

#1

Bumper mounts

Step 3

After the left and right side SU racks are mounted, install the "U" shaped bumper. Reference picture #1. Use the M6X20MM Socket Head Bolt, 3/16" washers, and M6 nylock nut at this location.

Step 4

Once all the bolts are started, check fit and tighten all bolts.
