

HAPPY-TRAIL.COM
Dual Sport & Adventure Touring Specialists

Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us directly at 1-800-444-8770 or e-mail installation@happy-trail.com.

Before you begin, place the bike on a hard level surface where you have room to work. Lay out the parts included in this kit and compare to the parts list on the final of these instructions. If any parts or hardware are missing, contact us immediately at the number or email listed above.

Step 1

Remove the factory tool bag, and the bolts that go through the side panel at the rear of the seat. Place the rack on the bike.

Place a lock washer and flat washer on the 6x70 SHCS bolts and insert through the front mounts, and thread into the frame.

Thread the two 6x20 SHCS, with fender washers, down through the top of the rack, through the fender and attach with flat washers and lock nuts.

Once all bolts have been started, go back and tighten down all four mounting bolts.

Fig 1
