

HAPPY-TRAIL.COM
Dual Sport & Adventure Touring Specialists

Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us directly at 1-800-444-8770 or e-mail installation@happy-trail.com.

Before you begin, place the bike on a hard level surface where you have room to work. Lay out the parts included in this kit and compare to the parts list on these instructions. If any parts or hardware are missing, contact us immediately at the number or email listed above.

NOTE: We recommend using blue thread lock on all bolts during installation.

Step 1

To install the grab handles, simply use the 8x25mm SH bolts, M8 flat washers, and M8 Nylock nuts provided with the handles to attach them to the mounting arm of the tail rack. The locations are circled in Figure 1.

Figure 1

NOTE: SU rack pictured. Sold separately.

Step 2:

Starting on one side, run an 8x70mm SH bolt and 8mm flat washer through each of the mounting holes in the tail rack arm. Then run a 1 1/2" spacer over each bolt and begin threading the bolts into the bike using a 6mm Allen wrench. Leave these bolts loose enough to allow for any necessary adjustment before fully tightening the bolts. See the arrows in Figure 1.

Note: If you have SU racks installed, you will remove the 1/4" aluminum spacers used to install them.

Package Contents:

Tail rack
Grab handle pair
Instructions/Hardware kit

Recommended Tool List:

6mm Allen wrench

Hardware List:

4 - 8x70mm SH bolts
4 - 8x25mm SH bolts
