

Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us directly at 1-800-444-8770 or e-mail installation@happy-trail.com.

Installation:

If your panniers have not been pre mounted, you will need to perform the following procedure. Figure out where you want the panniers mounted on the racks. Place your rack and aluminum pucks on the back side of the pannier as shown in the photo. Make sure the pucks rotate. Mark through the holes in the center of the pucks on to the panniers. Mark additional holes through the threaded inserts in the point 1 mounting plate. Drill four holes in each pannier with a 5/16" drill bit and de-burr the holes.

The photo at the left shows the location of the bolts and knobs on the outside of the panniers. An extra set of bolts is included in this kit so that you may, if you choose, just attach the panniers with bolts, rather than knobs. Note that the attachment knobs are threaded into the inserts in the Point 1 panel in the SU rack and not to pucks, and that the Flat Fender Washers are on the INSIDE of the pannier.

Included hardware

Bolt List:

- | | |
|---|--------------------------|
| 8 | M8x20 HH Bolts |
| 8 | 5/16 Flat Fender Washers |
| 4 | Aluminum Pucks |
| 4 | Knobs |
